Competitive Advantage - The Long Tail Of Influencer Marketing

Our value-add: helping brands to navigate a fragmented influencer market

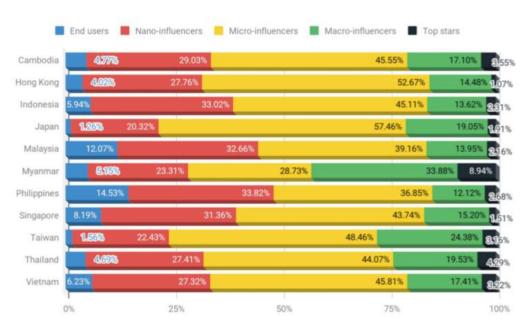

The influencer market has been becoming increasingly fragmented, with Nano and Micro influencers dominating a majority of follower volume.

Our database of 15,000 influencers, built over the past 15 years, enables us to provide the best influencers to suit the demographic requirement of our clients.

This has enabled Nuffnang Malaysia to become a partner of large media agencies and build a base of engaged clients, with 84% of its FY2021 revenue coming from existing clients.

Our competitors are smaller players in our market that lack the depth of data and the expertise and experience we have built over 15 years.

Influencers categorised by follower volume

Influencers are categorised as follows:

• End users: 100 - 1k followers

Nano-influencers: 1k - 10k followers

Micro-influencers: 10k - 100k followers

Macro-influencers: 100k - 1m followers

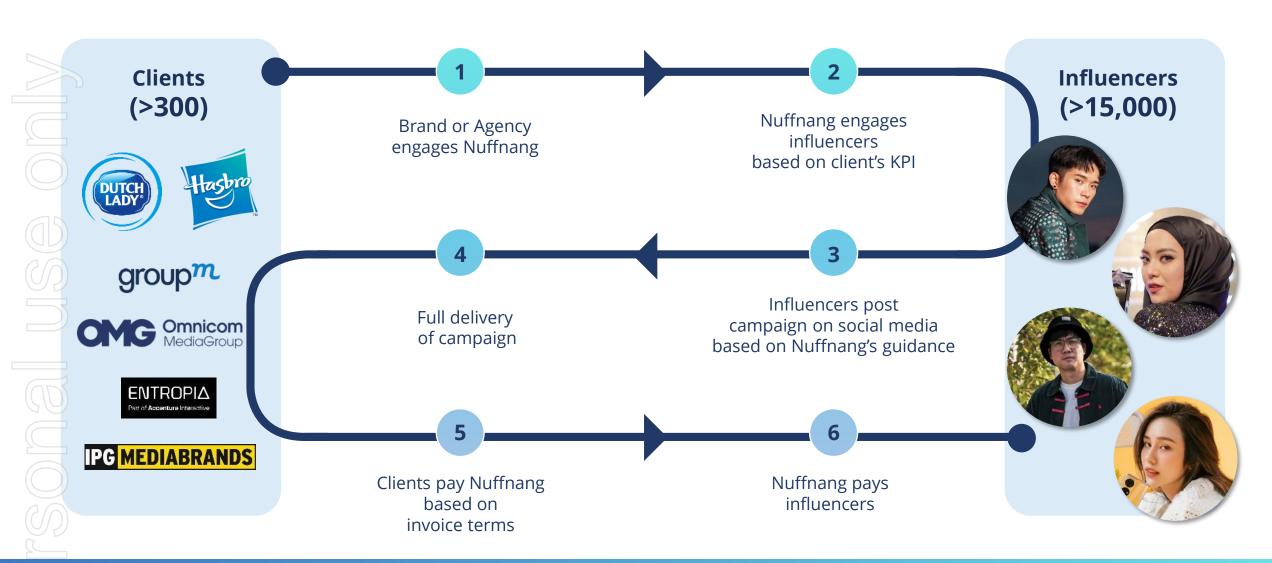

Top stars: 1m+ followers

Case Studies - Multi-Channel Network Partnership

NUFFNANG & TIKTOK SHOP

TikTok has launched a live shopping function called TikTok Shop for its Malaysian users in Q1 2022, after its recent success stories in the Indonesian market in year 2021.

To ensure a successful launch, TikTok engaged Nuffnang as one of its multi-channel network (MCN) partners to plan and execute a sales-driven influencer marketing campaign in the month of Ramadan.

THE **RESULTS**

For this "Selamat Super Deal" campaign, Nuffnang engaged 4 creators to conduct 3 major livestream sessions of 4 hours each in conjunction with the Hari Raya festival in Malaysia.

All our TikTok Shop sessions were successful, generating total revenue for merchants of close to S\$30,000 through sales of more than 3,000 items, and delivering significant boosts in gross merchandise volume (GMV) transacted by the creators.

Further contributing to the success, the usual abandoned cart rate was reduced from 70% to only 15% due to the engaging nature of live shopping combined with a trusting relationship between the creators and their fans.

Seen in photos are Alfred Ong aka Water Daddy; and Imran Bard aka imeringue2 with the Nuffnang team who was behind this campaign.

The Merchist by Nuffnang

END-TO-END MERCHANDISE MARKETPLACE, ALLOWING INFLUENCERS TO SELL THEIR OWN PRODUCTS

The Group recently launched 'The Merchist by Nuffnang', a new influencer merchandising marketplace, which provides influencers and artists with the opportunity to develop and sell their own branded products online.

The Merchist by Nuffnang is a full end-to-end influencer merchandising solution, providing inspiration, print-on-demand products and fulfilment, all free of charge and with no risk to the influencer.

The Merchist allows consumers to deepen their relationships with influencers by buying a range of customised merchandise, which supplements and diversifies revenue influencers earn through branded campaigns.

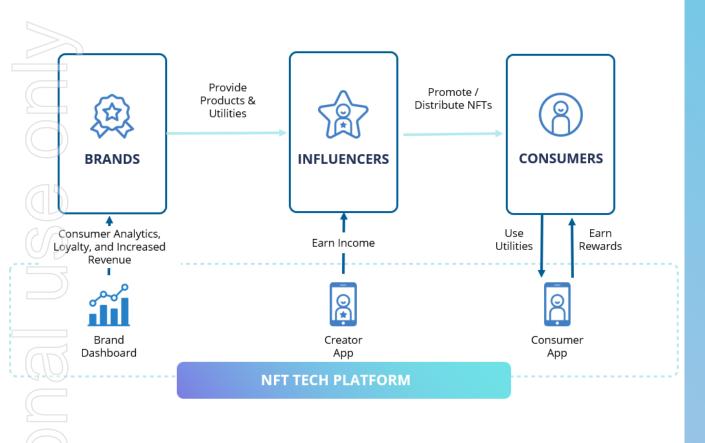

Initial sales through pilot tests have generated a strong response, providing Netccentric with the confidence to launch The Merchist by Nuffnang to its full network of influencers. 'The Merchist by Nuffnang' is now live at https://themerchist.com/.

Launching Our Web 3.0 NFT Creator Platform

THE NFT TECH ECOSYSTEM

Netccentric is developing a new platform which places the Group at the forefront of the Web 3.0 revolution: NFT Technologies Sdn Bhd ("NFT Tech")

NFT Tech will empower brand owners to issue non-fungible tokens ("NFTs") with real-world utilities in collaboration with influencers in a cost-efficient and user-friendly manner

Two-pronged business model: enterprise managed services to brand owners and a creator SaaS app (both to attract monthly subscription and royalty fees)

NFTs issued by the platform will provide:

For consumers:

- ✓ Real-world utility
- ✓ Applications to facilitate earning rewards and enjoying unique experiences with influencers

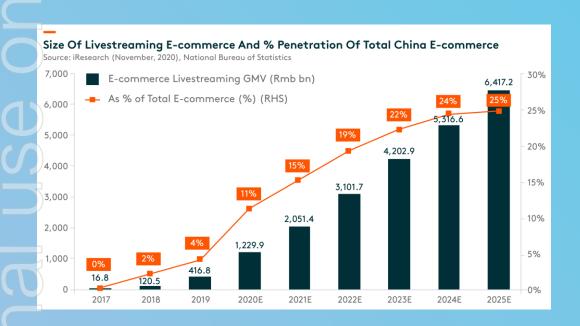

For brands:

- ✓ Opportunities to increase revenue and build loyalty
- ✓ Gain access to Web 3.0 analytics

Strategic Expansion: eCommerce Livestreaming

PROVIDING VALUE TO BRANDS, CONSUMERS AND INFLUENCERS

eCommerce livestreaming first emerged in 2016 as an interactive way to sell products to consumers. According to iResearch (November 2020), the total gross merchandise value (GMV) of livestreaming eCommerce will grow at a CAGR of 39% in the next 5 years, reaching RMB6.4 trillion (~US\$1tn) by 2025e and accounting for 25% of total eCommerce sales in China.

The increasing popularity of eCommerce livestreaming:

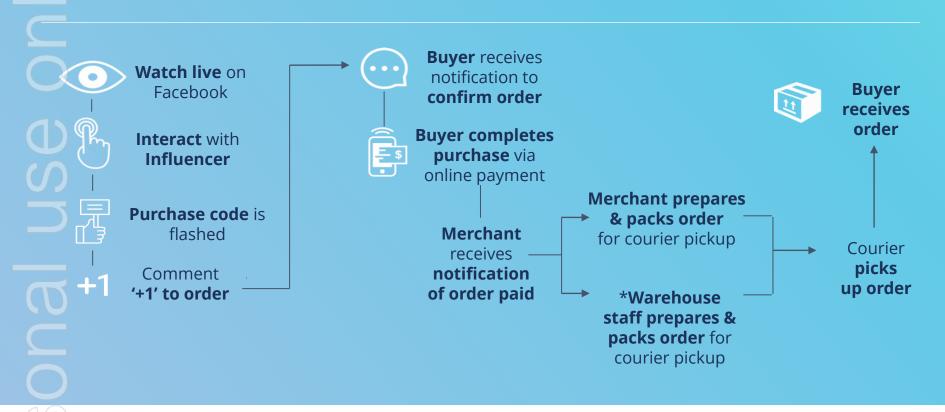

- Is a natural result of rising mobile time and evolving consumer behaviours. As users spend more time on online shopping, it has become a more entertaining and interactive experience
- Helps consumers to make their purchase decisions amid the explosion of products available online
- Provides value to merchants as an effective way to attract, connect, and interact with consumers. Livestreaming also helps merchants sell large volumes of SKUs in a short period of time, leveraging the influence of livestreamers who have large fan bases with strong purchasing power
